1957 Edition No. 5

March 13, 1957

SALES - In reviewing sales reports from agents, especially the item pertaining to personal contacts being made, we get a sinking feeling that there is and has been considerable "fiddling" going on while "Rome burns". In this case the burning is the consuming of the time available in which to obtain business for 1957. This is the 13th day of March. Sales days are dropping from the calendar with a heavy thud and any agent that hasn't heard the thuds is certainly asleep on the job. Some may have a rude awakening after the close of the campaign. If we have to do the selling we will just have to switch to service agreements and use the savings to pay salesmen. Our Headquarters office is watching the progress made by all agents very closely and will insist that changes be made where necessary. We just can't afford any more high priced "detail and paper work" agents.

We have stressed time and time again that personal contacts will result in sales. This is being proven in every county where proper contacts are being made. Soil Bank sign up is over so that is no more an excuse for not contacting prospects.

From now to the end of the sales campaign, District Supervisors are going to expect agents to be found in only one place - - - out in the field making contacts. The business won't come to you - - you must go after it.

If this should happen to be another year of 10 million dollars paid out in indemnities as was done in 1954, what will the result be in your county? You owe the farmers of your county a service to explain the benefits of Federal Crop Insurance to every uninsured. If you do this your county will be well protected and if not your farmers will stand to lose thousands of dollars in indemnities and it will be for no other reason than that you failed to give the service you agreed to give when you signed the agents agreement.

The Washington office is also keeping a close check on our moisture conditions. If it doesn't improve soon I may be forced to close sales in many counties before March 31. Roads have been good and so has the weather. Far different from last year. There just is no excuse for not hitting the trail except your own self. Where there is a will there is always a way. Last week we got very good coverage all over the state on our Associated Press release. It has been on radio, Television and in all papers. I know it's been read and seen or heard. The deadline is almost here so why not take advantage of all this and make sales. With the right kind of hard work you could still get 75 to 100 sales by April 1. That would put us in good shape as far as 1957 business goes.

I know this may seem plenty rough to you men, but it's as I see it from here. Some of you agents have done a mighty good job so far. You know how to get sales. I congratulate you on your work and urge you to increase your efforts from now on. If you do you might be the ones to save face for North Dakota. So, again let me say I appreciate your efforts and best of luck to you the rest of the way. Your increased earnings, I know, will be welcome to you, too. We have a job to do - - a difficult one - - and we must all push as hard as possible until it's completed. So let's all put our shoulders to the wheel and get it done.

NODAK CROP INSURANCE NEWS

FARGO, NORTH DAKOTA

UNITED STATES DEPARTMENT OF AGRICULTURE

1957 Edition No. 6

March 19, 1957

SALES - We are now into the final days of the 1957 campaign. The weather has continued to be good from the standpoint of travel and permitting contacts to be made. With all the dirt in the air when the wind blows, prospects should be aware of what could happen. Actually, the winds have provided a visual sales aid that we should be taking advantage of.

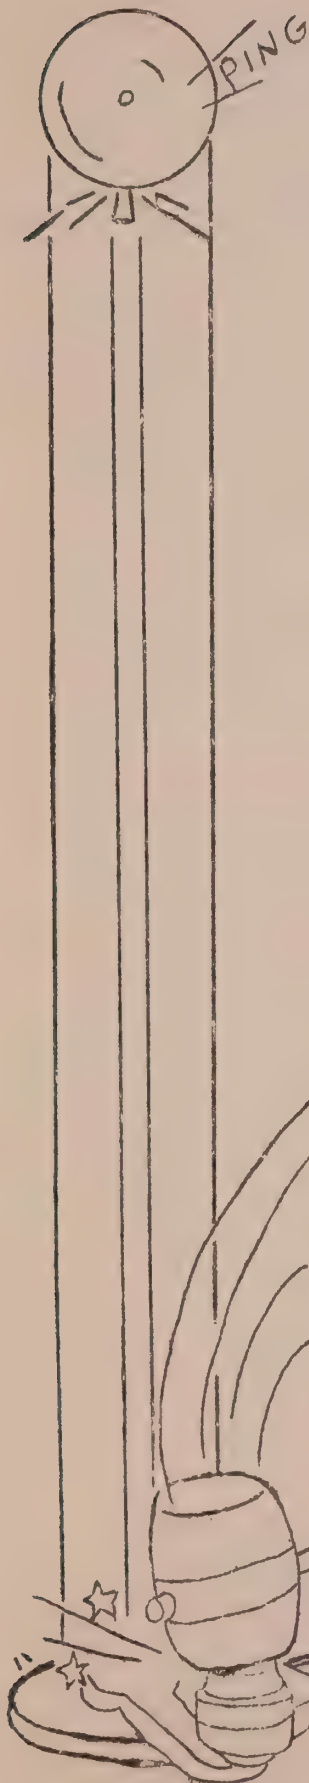

There has been considerable improvement in the number of applications received this week. Good work is being done by somebody. It certainly makes things appear brighter than they did only a week ago. Those of you who are making our sales increase, keep it up with more steam than ever. My thanks to you because it relieves the pressure on us for lack of sales. But, if any of you agents haven't gotten started yet or have done very little, remember there are only a few days left in which to do anything. Reread last week's Nodak News as a reminder of what may happen.

Since the closing date falls on Sunday, March 31 we can continue to sell through April 1, 1957. We expect every agent to spend April 1 in the field because we feel that you can get the extra applications that will make the difference as to whether or not we have a good sales record. Keep your office open, certainly, but just have some one there to accept signatures on applications. If further explanation of the contract is wanted by any signer you can do that on April 2.

So, all together through April 1. I'm banking on all of you to help bring home the bacon.

SALES REPORTS - Prepare the regular weekly report on April 2 rather than as of March 29 and mail it on April 2. If you do this we will receive it by Friday, April 5 and in that way it will be your final report.

SPECIAL SALES REPORT - Your District Supervisor has or will leave forms with you for making a report that will show just what you did on sales. This is similar to the report made last year after the close of the sales campaign.

SALES BY FCIC PERSONNEL - Your supervisor must furnish us with a listing by contract number and name of the sales made by Corporation fieldmen. Start assembling this information as soon as possible. Separate lists must be prepared for each commodity.

SUBMITTING APPLICATIONS - In order that we can complete auditing applications promptly we want all applications in this office by Friday, April 5.

COLLECTIONS - More than 700 letters have been sent to indebted producers whose contracts will terminate if the accounts aren't paid by March 31, 1957. Every one you collect means a contract in force for 1957.

ADJUSTERS MEETING - We are having a meeting with Key Adjusters and a few selected adjusters at Mandan starting at 1:00 p.m. on Monday, April 8. The meeting will be held in the Lewis & Clark Hotel. Agents are invited to attend. In some cases you may be able to travel with the District Supervisor or the adjusters. Discuss this with the Supervisor if you plan to attend. Washington Office representatives will be at this meeting.

NODAK CROP INSURANCE NEWS

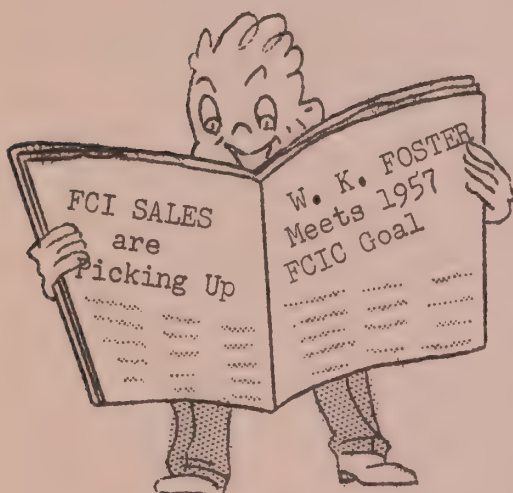

FARGO, NORTH DAKOTA

UNITED STATES DEPARTMENT OF AGRICULTURE

1957 Edition No. 7

March 26, 1957

GOOD NEWS

sales can be made if the necessary effort is put forth. As we have said before, business won't come to you, it is necessary to go after it. Every agent should be out in the field and by all means spend Monday, April 1 calling on the last prospects on your list. Don't expect them to contact you. Let's make the last day count.

SALES REPORT - Again we wish to remind you that your next report is to be made up on April 2 and mailed on that date. It is absolutely necessary to have a report from every agent because it will be the final report insofar as agents are concerned.

SALES - W. K. FOSTER in Stark County is the first agent that we know of to reach the maximum number of contracts that can be in force for 1957. Bill had a goal of 415 as compared to 274 contracts in force in 1956. Our congratulations to you, Mr. Foster, and we hope that before the 1957 campaign becomes history you will have many more agents for company.

Agent Foster and others are proving that

PREMIUM COLLECTIONS - We are happy to see money coming in from our collectors, agents and from producers who received our debt letter. We are keeping contracts in force and that's the main thing because we must have contracts and the resulting premiums if we are to stay in business.

ACREAGE REPORTS - With the close of the Sales

campaign we must turn our thoughts to servicing the contracts we have. The kind of service we give will often determine if an insured stays in or decides to cancel his contract before another crop year rolls around.

Our next job is the obtaining of an acreage report promptly after seeding is completed on an insured farm. You have heard us refer to the acreage report as the "heart of the contract", because until it is on file we don't know how much premium will be due and how much liability will be assumed and neither does the insured.

With reports of fieldwork underway in some areas and some acreage already aeeded, we must be ready to accept reports within the very near future. Your plans should be made and discussed with your District Supervisor. We can't let the job drag out as it has in other years. If we have to move in and gather up acreage reports because you failed to carry out your responsibility under your agreement with the Corporation, it will affect your pocket book first of all and secondly it will give us another reason for shifting to a service agreement.

LISTING OF AGENTS - We are enclosing a current list of agents, their counties, addresses and telephone numbers. Please check and advise us of any corrections that may be necessary.

UNITED STATES DEPARTMENT OF AGRICULTURE

NEWS

1957 Edition No. 8

April 24, 1957

SALES - Since the close of the sales campaign we have been busy processing the new applications, reviewing the contracts that were to be terminated because of unpaid debts and checking our figures for all items. We can now give you information that is reasonably accurate as to the number of cancellations, carryover business, new business and what is in force for 1957 in each Supervisor's area according to State Office records as of this date.

The cancellation figures include all cancellations of 1956 contracts for 1957. This would include producer cancellations, deceased insureds, no growers, unpaid debts, poor risks, etc.

The accepted applications figure reflects only the applications which were accepted and are in force for 1957. The rejected applications and the cancellations of 1957 applications that were signed with a stamp have been subtracted from the number received from a county. For example, we received 202 applications from Williams county. Two of these were rejected and two applicants that signed stamped applications cancelled them before December 31. Therefore, we accepted 198 applications from Williams county and this is the figure which is on the report.

The record shows that we again lost ground from the previous year for the State as a whole.

In every county where sales did not exceed or at least equal the cancellations the agent should take another look at his campaign and figure out where he could have improved it and to take the necessary steps to do so for the coming year.

Since selling is a year around job don't miss any opportunities to make sales this summer and fall. Don't wait too long to get going for 1958.

APPLICATIONS ACCEPTED AND CANCELLATIONS TO DATE
(April 24, 1957)

1. The first group of people who are interested in the study of the history of the world are the historians. They are people who study the past and try to understand what happened and why it happened. They write books and articles about the past and try to make sense of it. They are interested in the lives of the people who lived in the past and in the events that shaped the world. They are also interested in the changes that have taken place over time and in the ways in which the world has developed. They are interested in the past because it helps them to understand the present and to predict the future. They are interested in the past because it is a part of who we are and of where we come from. They are interested in the past because it is a part of our heritage and of our identity. They are interested in the past because it is a part of our culture and of our values. They are interested in the past because it is a part of our history and of our future. They are interested in the past because it is a part of our lives and of our world. They are interested in the past because it is a part of our story and of our journey. They are interested in the past because it is a part of our lives and of our world. They are interested in the past because it is a part of our story and of our journey.
